

# THE JOURNEY

There is no formula behind happiness.

Happiness is not algorithmic.

We all need to find our version of happiness.

I found mine in flavours and created an ambition to craft cocktails that are distinct thanks to their diversity.

The inspiration for this menu came from working closely with our chefs, by trying fresh ingredients from the Namayasi Farm in Lewes, East Sussex and also talking to Ichiro from the Umeshuya brewery.

The team and I have created a selection of cocktails to be enjoyed on their own or paired with food.
